

2025 REGION SMART CITY AWARDS

(Special focus on city transformation and innovation in Asia)

Enterprise Category Awards

Application Form

Application must be completed in English; proposals in other languages will be disqualified. You are encouraged to refer to the evaluation criteria set forth in the Terms & Conditions when filling out the following sections. If you have any questions or suggestions, please email us at: callforawards@tomorrow-city.com

*Terms & Conditions

- ☐ I have read the Terms & Conditions for the awards application, and by clicking this section I indicate that I understand and accept these terms. I understand and accept that the organization retains the right to disqualify my submission if it does not meet the criteria set forth for the category I have chosen for my submission, or to assign my submission to a more suitable category on my behalf.

*Should you encounter any doubts or require further assistance during the application process, please feel free to contact us via email at callforawards@tomorrow-city.com. We are committed to providing you with the necessary support and guidance.

*Please format the subject line of your email as follows: "Application Awards + Name of Applying Enterprise".

*Awards Category

(Please select only one category)

- ☐ Leading Corp.
- ☐ Outstanding S.M.E.
- ☐ Rising Start-up

Award Proposal Details

(*Required fields. Please do not leave any field blank.)

*Contact Person

Name	Job Position

Phone Number/WhatsApp	E-mail

*Full Name of the Enterprise

*Enterprise Address

*Please Specify Country & City Where the Enterprise's Headquarters Is Located

*Enterprise Website

***Enterprise Size**

***Keywords** (max. 150 words)

Select one or more from the main keyword listed above

Additional Keywords (max. 150 words)

You may fill in other keywords relevant to your product

***Please Select the Most Suitable Tag for Your Proposal**

(Choose exactly one option from each group: A, B, and C)

Revolutionary Technology: An unprecedented technology, breaking traditional theories/views, and set to become a pioneer in the industry.

***A**

Innovative Technology: A new technology in the market, could be an innovation following a certain technology development, integration innovation of existing technologies, or an original invention.

Combination of Existing Technologies

Disruptive Business Model: Exploring new (inventive) business models from scratch, standing on the shoulders of giants; breaking away from existing industry scenarios with pioneering thinking.

***B**

Innovative Business Model: An innovation in business models, which could be optimization (from good to better), redefinition (forging a new path), or recombination (creating new value).

Combination of Existing Business Models.

Pioneering Application Scenarios: A breakthrough in city and industry-related scenarios, with application development based on these scenarios. These applications assist cities and industries in governance, economy, lifestyle, productivity, etc., achieving new development results and effective market feedback and profits.

***C**

Innovative Application Scenarios: New applications based on already developed scene applications in cities and industries, optimized and iterated. They assist in governance, economy, lifestyle, productivity, etc., helping cities and industries to achieve greater success on existing bases and to enhance market recognition, participation, and profits.

Combination of Existing Application Scenarios.

***Description and Overview** (max. 2000 words)

In your description, outline the problem your enterprise aims to solve, discuss its innovativeness (including whether it is an original approach), state your strategic objectives, define the implementation scope by identifying target groups and specifying the proposal's impact range (e.g. region, city, or neighborhood), describe the current implementation status, evaluate the feasibility of execution and potential for replicability, and quantify the anticipated results or impact—including considerations of safety, citizen participation, and added value

Additional Information (e.g. Website Links)

You may add an explanatory link to a website/video link related to the proposal

***Supporting document**

For a detailed explanation of your case, please provide a supporting document in PDF format, limited to a maximum of 10 pages or slides, and send it as an email attachment along with this application form.

***Proposal images**

Please submit up to 5 high-resolution JPEG images (minimum 2048px) that represent your award proposal by showing either the realization of your solution or the city/country/group of people benefiting from it; if your proposal is selected as a finalist, the organizers may publish these images on a large projection screen, so please avoid infographics, PowerPoint slides, or screenshots (these may be included in your supporting document instead), and send the images as an email attachment along with this application form.
